Name: Saghar Sarfaraz

Roll No: 2024-CET-31

Subject: Graphics Designing

Department: Software(CET)

Submitted To: Engr Ahmed Khawaja

Task: Mid Term Lab Exam

Mid Term Lab Exam

Statement:

A new student society named “Creative Tech Society” has been launched in the Department of Software Engineering. The society wants to promote its first event, “Design Sprint 2026”, where students will learn basic poster designing, logo designing, and branding skills.

1 The society needs to design:

- i. A promotional poster for the event

Apply the concept of Principles and elements of graphic design and make the poster.

Ans: I have created a poster for the event of “Creative Tech Society”. This poster is used for Promoting the event and also useful for guiding the student how to create poster and logo.

Explanation of Poster:

Images:

I used a lot of images to create this Poster. Images make the Poster Beautiful.

Title:

I use a big title in this design because if the title is big and clear it is very easy for people to understand the main point of Poster.

Icons:

I used different icons that show the date time and venue.

Fonts:

I used different fonts for making design easy and clear. In the title I used bold font and some places in body I used simple font.

Symbols:

I used different Symbols for making the design beautiful.

Links:

At the end I give link if any one need more information about the event, by using the link easy to gain information.

2.Design a simple and meaningful logo for “Creative Tech Society.”

The logo should represent creativity, technology, teamwork, or innovation. It should be suitable for use on posters, certificates, social media pages, and event banners.

Ans: I have made a simple logo of “Creative Tech Society”. Which is useable in different field of Tech to show Posters, and social media post more interactive.

Logo:

Explanation:

Logo:

In this Logo one capital “T” which show it is logo of Tech field. On the right side, three lines which end with dots show the revolution of IT.

At the top of logo three human emoji show we work with teams in IT field. On the right-side fire shows the fast progress of the field.

Title:

We used the title “Creative Tech Society” Bold which help understand the logo easily.

3.A startup named “Green Byte Solutions” is launching an awareness campaign titled “Save Energy, Save Future.” The startup wants a poster to promote the campaign. Students will design:

A campaign poster

Ans: Poster for “Green Byte Solutions” with the topic of “Save Energy save Future”.

Design:

Images:

I used a lot of images to create this Poster. Images make the Poster Beautiful.

Title:

I use a big title in this design because if the title is big and clear it is very easy for people to understand the main point of Poster.

Icons:

I used the icon to show the problem which we face if waste Energy.

Fonts:

I used different fonts for making design easy and clear. In the title I used bold font and some places in body I used simple font.

Symbols:

I used different Symbols for making the design beautiful.
