Lab Task

- Crate a one-page event poster or social media post using only basic shapes, text, and two or three colors.
- Apply at least three elements of design and three principals of design in your composition.
- Ensure the title is clear and dominate and the supporting details are readable and aligned properly.
- Use white space deliberately instead of filling every area with decoration.
- Maintain a small, controlled color palette to avoid visual clutter and inconsistency.
- At the end, explain which design choice you used intentionally and why.

ANS: I created a social media post about Cricket.

I make a poster at Babar Azam recently Achieve Milestone.

BREAKING NEWS

BABAR AZAM Completed 12000 T20 Runs and become first player to Achieve this Milestone in 338 innings.

Explanation:

I used in this design White background color because I want to make the design simple as possible. I used two fonts for making the design clear and heading and body text are different from each other. I used one picture for batter result and paste at top left side which make design beautiful.
