Assignment: NO 01

Simple Poster Desgin

Assigment Objective:

Student will design a simple poster by applying basic principal of color,tyography ,readability and layout. The task is intentionally easy so everyone can it on time.

Minimum Requriments:

- A4 page size
- Use 3 to 5 color only
- Use 1 or 2 font only
- Include a clear title and short supporting text
- Add at least one image ,icon or shapes
- Keep desgin readable and balanced
- Submit origenal work only

Title :

Be Aware , Be Secure

(Be Aware from online Attacks and make sure your data is secure)

BE AWARE, BE SECURE

Protect yourself from cybercrime

1. Be Cautious with links and attachments
2. Use strong passwords
3. Verify online requests
4. Keep software up-to-date
5. Report suspicious activity

Explation:

The Poster is designed to promote cybersecurity awarenness in simple and clear way. I selected dark blue as the primary color because it represent trust and security. White improve readability and keep the design clean. I used to fonts two maintain consistency and readablity. Bold is used for title. The layout is balanced with the title at the top, icon in the center and short tips below. The overall design follows basic principal of color contrast, readability and alignment.
